

We make your
research happen

[Submit your application today](#)

Let us support your study

Our Investigator Initiated Studies program, IIS, is a very important part of Dentsply Sirona's global research program. If you have a study proposal and want to investigate one of our products or solutions, we can support the research with products and/or financially. Will your proposal be the next one to qualify?

As a leader in the dental industry, Dentsply Sirona is committed to extensive research. The results from your studies help to increase the knowledge and documentation of our products. We highly appreciate your contribution, and so does millions of satisfied patients all over the world.

Research support

Available research support from Dentsply Sirona includes products and/or financial support up to a maximum of 49% of your total study cost. Your proposal and study details will be kept confidential.

The objectives of the study are determined by your own research interest. Today, the ongoing studies covers a variety of research topics and are conducted as clinical studies, case series, in-vitro and mechanical studies.

A quick admission process

You can easily apply by submitting the application form. We have an ongoing admission process, continuously handling incoming study proposals. All submitted research proposals are reviewed by our Global IIS Review Committee and you will get an answer within eight weeks. If you have any questions before sending in your application, please don't hesitate to contact us.
